1 Independent Auditor's Report

To the South Australian Skills Commissioner South Australian Skills Commission

Opinion

I have audited the financial report of the South Australian Skills Commission for the financial year ended 30 June 2022.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the South Australian Skills Commission as at 30 June 2022, its financial performance and its cash flows for the year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards – Simplified Reporting Requirements.

The financial report comprises:

- a Statement of Comprehensive Income for the year ended 30 June 2022
- a Statement of Financial Position as at 30 June 2022
- a Statement of Changes in Equity for the year ended 30 June 2022
- a Statement of Cash Flows for the year ended 30 June 2022
- notes, comprising material accounting policies and other explanatory information
- a Certificate from the South Australian Skills Commissioner and the Manager, Quality and Risk.

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the South Australian Skills Commission. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the South Australian Skills Commissioner for the financial report

The South Australian Skills Commissioner is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and the Australian Accounting Standards – Simplified Reporting Requirements, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the South Australian Skills Commissioner is responsible for assessing the entity's ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The South Australian Skills Commissioner is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987*, I have audited the financial report of the South Australian Skills Commission for the financial year ended 30 June 2022.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of

expressing an opinion on the effectiveness of the South Australian Skills Commission's internal control

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the South Australian Skills Commissioner
- conclude on the appropriateness of the South Australian Skills Commissioner's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with the South Australian Skills Commissioner about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

Notes to and forming part of the financial statements

For the year ended 30 June 2022

1. About the South Australian Skills Commission

The *Training and Skills Development (Miscellaneous) Amendment Act (Commencement) Proclamation 2021* (dated 24 June 2021) proclaimed that effective from 1 July 2021, the *South Australian Skills Act 2008* is enacted and the establishment of the South Australian Skills Commission (the Commission) as a Statutory Authority, instrumentality of the Crown.

The Commission entered into a Service Level Agreement with the Department for Innovation and Skills during 2021-22 for the delivery of corporate service support (including marketing and economics) to the Commission to enable it to meet its statutory requirement in delivering its functions.

The Commission does not control any other entity and has no interests in unconsolidated structured entities. The financial statements and accompanying notes include all of the controlled activities of the Commission.

1.1. Basis of preparation

The financial statements of the Commission are general purpose statements and have been prepared in compliance with:

- section 23 of the *Public Finance and Audit Act 1987*;
- Treasurer's Instructions and Accounting Policy Statements issued by the Treasurer under the *Public Finance and Audit Act 1987*; and
- relevant Australian Accounting Standards with reduced disclosure requirements.

As the Commission was established on 1 July 2021, there are no prior period comparative figures presented in the financial statements.

The Commission has applied Australian Accounting Standards that are applicable to not-for-profit entities, as the Commission is a not-for-profit entity.

The financial statements have been prepared based on a 12 month reporting period and presented in Australian currency. The historical cost convention is used unless a different measurement basis is specifically disclosed in the notes associated with the item measured.

Assets and liabilities that will be sold, consumed or realised as part of the normal operating cycle are classified as current assets or current liabilities. All other assets and liabilities are classified as non-current.

Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the Australian Taxation Office, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable; and
- receivables and payables, which are stated with the amount of GST included.

GST collections and payments are carried out by the Department for Innovation and Skills on behalf of the Commission. GST in relation to the Commission is reported in the Department for Innovation and Skills Financial Statements.

South Australian Skills Commission
Notes to and forming part of the financial statements
For the year ended 30 June 2022

1.2. Objectives of the Commission

The South Australian Skills Commission was established under the *South Australian Skills Act 2008* (the Act) to assist, advise and make recommendations to the Minister for Education, Training and Skills (previously Minister for Innovation and Skills) on the development and performance of Vocational Education and Training (VET) and Adult Community Education (ACE). The Commission engages directly with industry and employers to deliver the skills they need for future jobs in South Australia.

The Commission's responsibilities are both strategic and regulatory, and its industry composition and independent statutory status give it a unique role in skills and workforce development for economic and social development in the state.

The Act also gives authority to the Commission in:

- regulating apprenticeships and traineeships.
- providing services to apprentices and trainees, international students, employers and training providers by responding to complaints, and advocating and mediating disputes to find solutions to issues relating to training contracts.
- promoting pathways between secondary school, VET, ACE and higher education.
- promoting lifelong learning and flexibility in the training system.
- monitoring and performance of the system.

Working under the Act, the Commission aims to continuously improve the VET sector and support employers to build their workforce and assist learners, apprentices, and trainees to commence and complete qualifications.

The Act is supported by the *South Australian Skills Regulations 2021* and the South Australian Skills Standards that provide further guidance to the Commission and stakeholders, including employers, apprentices, trainees and nominated training organisations, on their respective roles and responsibilities.

1.3. Impact of COVID-19 pandemic on the Commission

The COVID-19 pandemic has impacted on the operation of the Commission and the key impacts in 2021-22 were:

- Since 1 July 2021, service delivery has been interrupted by COVID-19 resulting in the Commission transitioning from in-person dispute resolution to a virtual format. It is anticipated that virtual dispute resolution will continue into the foreseeable future to minimise health and safety risks to staff and members of the public.
- Virtual events were held for Industry Skills Councils, Commission Outreach program and regional consultations in preference of face-to-face events.

The Commission will continue to monitor and assess the impact of the COVID-19 pandemic on its operations in 2022-23.

3.4. Employee benefits liability

	2022 \$'000
<u>Current</u>

Skills and experience retention leave	7
Total current employee benefits liability	<u>141</u>
<u>Non-current</u>	
Long service leave	<u>222</u>
Total non-current employee benefits liability	<u>222</u>
Total employee benefits liability	<u>363</u>

Employee benefits accrue as a result of services provided by employees up to the reporting date that remain unpaid. Long-term employee benefits are measured at present value and short-term employee benefits are measured at nominal amounts.

Salaries and wages, annual leave, skills and experience retention leave and sick leave

The liability for salary and wages is measured as the amount unpaid at the reporting date at remuneration rates current at reporting date.

The annual leave liability and the skills and experience retention leave liability is expected to be payable within 12 months and is measured at the undiscounted amount expected to be paid.

No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees is estimated to be less than the annual entitlement for sick leave.

Long service leave

The liability for long service leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method.

The expected timing and amount of long service leave payments is determined through whole-of-government actuarial calculations, which is then applied to the department's employee details. Key assumptions include whether the characteristics of employee remuneration, terms of service with the public sector, and expectations as to when employees take long service leave, as established by the actuary, are applicable to employees of the department. These assumptions affect both the expected amount to be paid that has been factored into the calculation of the liability. The discount rate used in measuring the liability is another key assumption. The discount rate is reflective of long-term Commonwealth Government bonds. The yield on long-term Commonwealth Government bonds was 3.5% for 2022.

Current long service leave reflects the portion of leave expected to be settled within the next 12 months.
